IIS / Tomcat

Summary

- **12+years** of professional experience as a **.NET software engineer**, having worked in both **Ireland** and **Spain**, as well as **remotely**
- Extensive knowledge of **web development**, both **back-end** and **front-end**, and software development life-cycle, **methodologies** and **best practices**

Work experience

2018 - Pres. **Senior .NET Web Application Developer**

2014 - 2017 **Strata 3 (Dublin) - Remote work**

(5 years)

- **Responsible** for .NET and Java **web applications** development and maintenance (70% **backend** - 30% **front end**)
- Developed **web forms**, Client/Server **validation**, **CMS integration**, **DB** and **web services** in/out processes, **production releases** for **KBC.ie**, **Tourism Ireland**, **CPL.ie**, **Energia.ie**, **IrishRail.ie**, **CPA**, **An Post**, etc.
- Handled **support tasks** for different clients and platforms and **solved 95%** of their issues
- Performed time **estimates**, **technical documentation**, **CMS** and **API integrations** and **server administration**

C#, ASP.NET, VB.Net, MVC, JS/JQuery, SVN, JSP, SQL, IIS, Tomcat, Jira

2018

Senior .NET Full-Stack Engineer

(1 year)

Spencer Stuart (Dublin)

- Responsible for **full stack** development of the main enterprise product
- Contributed to improve the **quality** and **productivity** of the new releases working in an **agile** environment with highly **automated** processes
- Used **good practices**: code reviews, automated tests, design patterns
- Implemented **Scrum**: planning, grooming, retro, spikes, story points
- Demoed new features developed and mentored new team members

C#, MVC, WCF, Sass, Angular, Knockout, RabbitMQ, TeamCity, Jira, Scrum

2017

.NET Solutions Engineer

(0.5 years)

Deloitte Ireland (Dublin)

- Designed **enterprise scale solutions** based on the **.NET stack** in collaboration with the **Department of Social Protection**
- **Developed** new modules for **MyWelfare.ie** and **integrated** existing ASP.NET MVC websites into **Umbraco CMS** and **Azure**
- Created successful **proof of concepts** followed by **presentations** and **demos** showing the **client** the viability of new technologies

C#, ASP.Net MVC, TFS, Azure, EF, Unity (DI), Scrum, Unit testing, Biztalk

2013 - 2014 **FullStackWebDeveloper/Consultant**

(1 year)

Incentro Spain

- **Responsible** for **.NET** and **Java full stack** web applications development for important Dutch clients
- **Designed technical solutions**, performed **time estimates** and implemented new functionality and components for them
- **Developed** and **integrated new modules** for Web Content Management Systems such as Tridion and GX / XperienCentral

.NET, MVC, JavaScript, JQuery, HTML, CSS, XSLT, Java, SVN, Eclipse

2010 - 2013 **C# Developer**
(2.5 years) [Semicrol \(Spain\)](#)

- Handled the tasks of enhancing, expanding and deploying an existing **ERP product (WinForms / ASP.NET)**: [fundanet.es](#)
 - Designed **DB changes** and **implemented** new components
 - Performed the tasks of **data migration** to SQL Server databases from other engines and **deployment** of new versions of the product
 - Responsible for the management of several **SharePoint based sites**
- C#, T-SQL, SQL Server, ADO.NET, TFS, SharePoint, ASP.NET, JS/JQuery

2008 - 2010 **VB.NET Developer**
(2.5 years) [RPTec.es \(Spain\)](#)

- Responsible for the **creation of a WinForms application** for managing mining **projects** and **printing** their **documentation** by using VB.NET ([plandelabores.es](#)), still used by the Spanish Ministry of Industry
 - Designed, implemented, tested and documented the **entire application**
 - Designed and implemented a small **Android application**
- VB.NET, ClickOnce, ADO.NET, MS Reports, SSRS, Eclipse, Android, SQLite

2007
(0.5 years) **Java Developer**
[Killer Ideas \(Spain\)](#)

- Created a **comprehensive solution** for a driving school
- Created **UML documentation** and designed **user interface** screens
- Responsible for the **backend** implementation in Java EE, including **complex algorithms** to get an ideal schedule based on preferences
- Performed **unit testing** by JUnit and application testing

Education

2012 - 2014 **Bachelor of Software Engineering**
[University of Oviedo \(Spain\)](#)

2005 - 2009 **I. T. Diploma**
[University of Oviedo \(Spain\)](#)

Certifications

[Microsoft Professional Program for Artificial Intelligence \(In Progress\)](#)

TECHNICAL SKILLS

- Comprehensive knowledge of **Object Oriented Programming**, **Relational Database Design** and **Content Management Systems**
- Experienced in **Server configurations** (domains, SSL, scheduled tasks), **Issue Tracking** and **Version Control Systems**, User **Interfaces** and **Project Management**

Portfolio

- 2016 - **Xamarin developer**: [RecMin GC](#) (Tool for Geologists)
Xamarin.Android, C#, VS 2015, SQLite, Google Play
- 2014 - **Creator and developer of** [GTDoro.com](#) (Personal Project Management App)
ASP.NET MVC 5, C#, VS 2013, HTML 5 / CSS 3, EF, SQL Server, JQuery
- 2013 - **Freelance web developer** (2 months)
HTML5, CSS3, Javascript, JQuery, PHP, SEO, Domain management, Hosting, DNS
